

## HAWA SLIDE AND POCKET SYSTEM

The newly designed Hawa Concepta III family follows an innovative basic approach: Only making rooms visible when they are needed. Contemporary trends such as lack of urban living space and the associated demand for using living areas in an economical and multi-functional way have been anticipated perfectly in this way.

This is because the Hawa Concepta III and the Hawa Folding Concepta III make it possible to conjure up an office or an entire kitchen from virtually nothing, and make it disappear again. And they reveal themselves to be space economy experts by requiring very little room in the parked position.
