Cape Town

making the world a more comfortable place

The representation of colours may differ from reality.
All our designs are registered internationally.

The journey to creating comfort, every day, for everyone, the vetsak way. We start the exploration by taking it back to where it all started - Cape Town.

Having set our roots in 2012 as a humble beanbag company in Woodstock, Cape Town, our fresh, fearless, multi-cultural soul and digital brain was formed together by our founders - two German and one South African entrepreneur.

Our vetsak spirit is curious, creative and innovative, inspiring our tribe with comfort and happiness. Since then, we've organically grown into a global e-commerce furniture brand, leading the revolution in comfort. Our ultimate goal is to make one-of-a-kind, quality, practical furniture, that brings a little extra comfort and ease into your life.

Every morning we wake up with one aim - to make your day as comfortable as possible.

Breaking down barriers, innovating design and creating stylish comfort is what we always strive to achieve. We challenged the concept of indoor and outdoor fabrics by bridging the gap between the two and creating our newest in- & outdoor fabric collection.

Linen, canvas and knit are designed as weather resistant covers that are machine washable and changeable, allowing you to rest easy in knowing that come rain or shine your vetsak product is built to last. Comfort shouldn't be limited but rather enjoyed with peace of mind that your covers can literally be placed anywhere your heart desires.

To the bold, the confident, the creators,
the wild ones, the daring, design-centric, risk-takers –
vetsak is an ode to you. Without you, we would be half
the brand we are. You encourage us to go further, be
more curious, crazier, more creative. To challenge the
status quo, to never hide in the shadow of the ordinary
or the expected. To design a more comfortable world
for everyone; from those who make our products to
those who bring them home, and everyone in between.
