
Sun Clay Collection
Beam

Our lighting collection is made up of two shapes :
the Bloom and the Capsule.

Comprising of powder-coated aluminium and glass, they can be made up in custom colours with a textured matte or gloss finish.

All our products are designed in our studio, in a hill, overlooking the Indian Ocean and manufactured in Kwazulu-Natal, South Africa.

Our ethos to ‘think global, love local’ underpins our mission to advocate for local craftsmen and create a range of quality homeware available both on our shores and internationally.
