WHEN NATURAL MEETS MODERN

This bathroom idea is brought alive from the interplay between the ARTWOOD rustic wood decor in oak ventura and elements in black, like washstand and tap. Emotion lighting on the mirror – and indirectly below the wall cabinet – complement this bathroom concept.

2 - The black elements, like washstand, tap and handle trim, add contrasting statements.

But even in the smallest of bathrooms – the guest toilet – you can create a new atmosphere in hardly any time at all. Design family bathrooms that leave you wanting for nothing and pamper the soul with every day that passes. There's the right solution for virtually any space. Try it out for yourself.

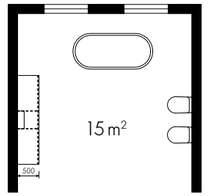

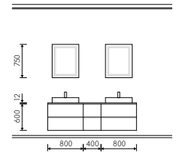

1 - A small, accomplished guest toilet gains from high-quality furniture.

2 - A few, cleverly chosen items of furniture create plenty of storage space and an atmosphere that makes you feel welcome. Genuine lacquer surfaces and the combination of round and square components are the mark of modern bathroom design.

THE DETAILS MAKE THE DIFFERENCE

For you to really feel good in your bathroom, it not only needs to look perfect on the face of it. It's the details that really matter – besides quality "Made in Germany", of course, which is at the core of our furniture. So, why not take a moment and see what makes the big difference at Nolte SPA, also when it comes to the little things.

Our washstand bases come as standard with a U-bend cut-out and cosmetics organiser.

Genuine lacquer fronts are optionally available with lacquered surrounding element.

Cabinet interiors are perfectly protected from dust and moisture so typical of the bathroom environment. This is ensured by the sealing edge in matching decor.

Interior decor: Nolte SPA cabinets in carcase colours are identical in decor both inside and out. You would prefer front and visible sides to look the same? With many colours, this can be done too.

You can also alter the colour of light in the bathroom and control illumination by gesture or remote control. You can use our LED Emotion lighting almost anywhere, e.g. in mirror cabinets or open compartments.

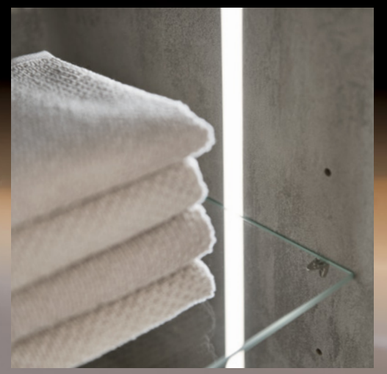

MatrixArt: our handleless bathroom furniture is also available with LED Emotion lighting. The side panel comes in a variety of finishes.

MATRIXART by nolte SPA

Base and washstand units are available in 60 and 45 cm height.

All lighting elements provide an IP44 protection rating which means they meet all requirements in the bathroom environment.

Nolte SPA also offers function mirrors that can be varied in width.

FRONTS

Add a splash of colour to your bathroom. The Nolte SPA mat lacquer concept lets you do precisely this: Featuring 20 on-trend colours, you can choose from the entire colour spectrum – from warm to cool, from light to dark, there's something for virtually every taste!

What's more, we also have the right front for every budget: from melamine resin to genuine lacquer, from plain colours to stone and wood decors, the sky's the limit. And the best part: with MatrixArt, most fronts can even be provided in a handleless option.

OUR COMMITMENT TO ...

THE COMPANY

As a matter of good corporate governance and the associated values, we have established resilient structures, processes and partnerships over a period of many years. High quality; modern aesthetics, sustainability and an attractive price-performance ratio are the factors that are always taken into account in our product range. So, for instance, over 99% of the woods we use complies with the principles of sustainable wood criteria.

THE ENVIRONMENT

As a company, we have made it our aim to maintain a responsible and sustainable use of natural resources. Thanks to our effective climate management, we are able to manufacture our products in a climate-neutral manner at our two operating bases in Löhne and Melle. The main fuel sources at Nolte Küchen are certified green electricity and our boilers, which operate with offcut wood from production.

THE PEOPLE

Our members of staff are particularly close to our heart. Their dedication, knowledge, experience and curiosity are what define us as Nolte Küchen. For this reason, we are pleased to assist our staff in furthering their development – both on the work side through basic and further training as well as on a private level by respecting and enhancing their work-life balance.

THE SOCIETY

Ever since Nolte Küchen was first founded, we have cultivated close ties with the region, and we actively foster its well-being and growth. Social commitment is a tradition for us, and we have placed great emphasis on it from the very first day. We help people and regions in emergency situations, such as educational institutions, associations and foundations that are involved in child protection. Our credo: support is given where support is needed.

The grounds of Nolte Küchen have been home to local bees since the summer of 2023, and they have already brought in their first nectar into their hive. They not only provide delicious honey but are also indispensable pollinators, making a significant contribution to the preservation of many plant species.
