The Superior Surface
for interiors, exteriors and
everything in between

The Superior Surface

Infinity engineered surfaces are realized in big slabs for countertops, furnishings and building projects.

NEW-GENERATION PRODUCTS AND SERVICES

Infinity surfaces are derived from decades of experience achieved by Concorde Group, the major Italian manufacturer of ceramic floor and wall coverings for architecture and interior design.

We design, produce and sell large-size slabs for surfaces, furnishing accessories, for application on interior walls or for cladding of glued or ventilated walls.

Our slabs are manufactured in sizes of up to 3200 x 1600mm, and thicknesses of 6 and 12 mm, for all kinds of requirements.

Why Infinity?

ADVANTAGES OF THE PRODUCT

All Infinity surfaces have structural, aesthetic and functional characteristics that make them a unique option for indoor and outdoor surfaces, furnishings, floor and wall coverings.

The slabs are resistant to wear, tear and scratches, and are easy to clean. As the years pass, they do not show the unattractive signs of wear typical of resins or other natural materials, and are not affected by heat or acids.
