

VERRA STONE

Sintered Surfaces

Calacatta Aureo | 12mm | Silk Finish | 1600mm X 3200mm

Verra Stone is more than just a surface; **ITS A STATEMENT**

It reflects your **VALUES**, your appreciation for **QUALITY** and dedication to a **HEALTHIER PLANET**

Our slabs are manufactured in one of the largest sintered slab factories in the world, using advanced technology to **MINIMISE** environmental impact without compromising on detail, quality and consistency.

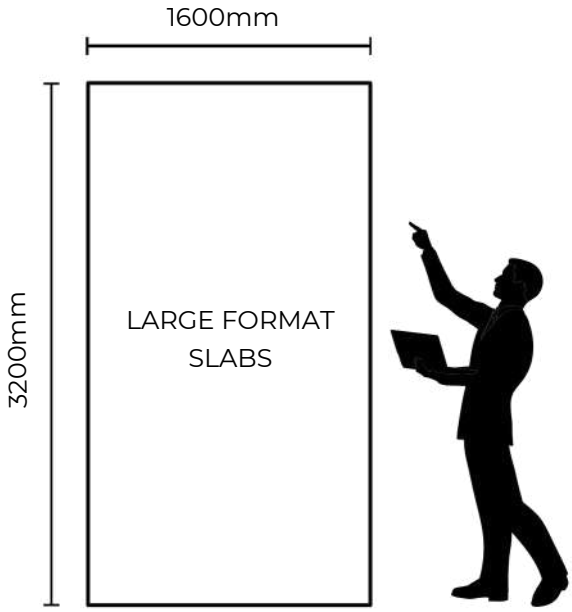

For the discerning individual who appreciates both **REFINED** aesthetic and mindful living, Verra Stone is the preferred **CHOICE**

WHY VERRA STONE?

All Verra Stone surfaces have structural, aesthetic and functional characteristics that make them a unique option for indoor and outdoor surfaces, floor and wall coverings or bespoke furnishings.

Renowned for its strength, non-porous surface, and exceptional resilience, sintered stone withstands heat, sunlight, and harsh weather without fading or wear. Sintered stone is also easy to clean and not affected by heat or household cleaning chemicals, making it ideal for kitchen countertops, bathroom vanities and shower enclosures.

Large Format Slabs offer versatility of installation. All of Verra Stone slabs come in 12mm thickness and are 1600mm X 3200mm.

EASY CARE & MAINTENANCE

Verra Stone Surfaces are designed for effortless maintenance. Simply clean with mild soap and water to maintain their enduring beauty.

Gloss
SURFACE

The polished surface is achieved using a super abrasion-resistant dry grain glaze, ensuring a high gloss finish (gloss ≥ 85°) that perfectly restores the porcelains mirror-like effect in three dimensions. This enhances the slab's surface texture, making it more transparent with richer layers and brighter colors, while also providing superior abrasion resistance.

Honed
SURFACE

The honed surface is achieved using a specialized printing technique that mimics the natural veining and textures found in real marble and stone. This enhances the slab's surface texture, while offering a semi-polished finish, while also providing superior abrasion resistance.

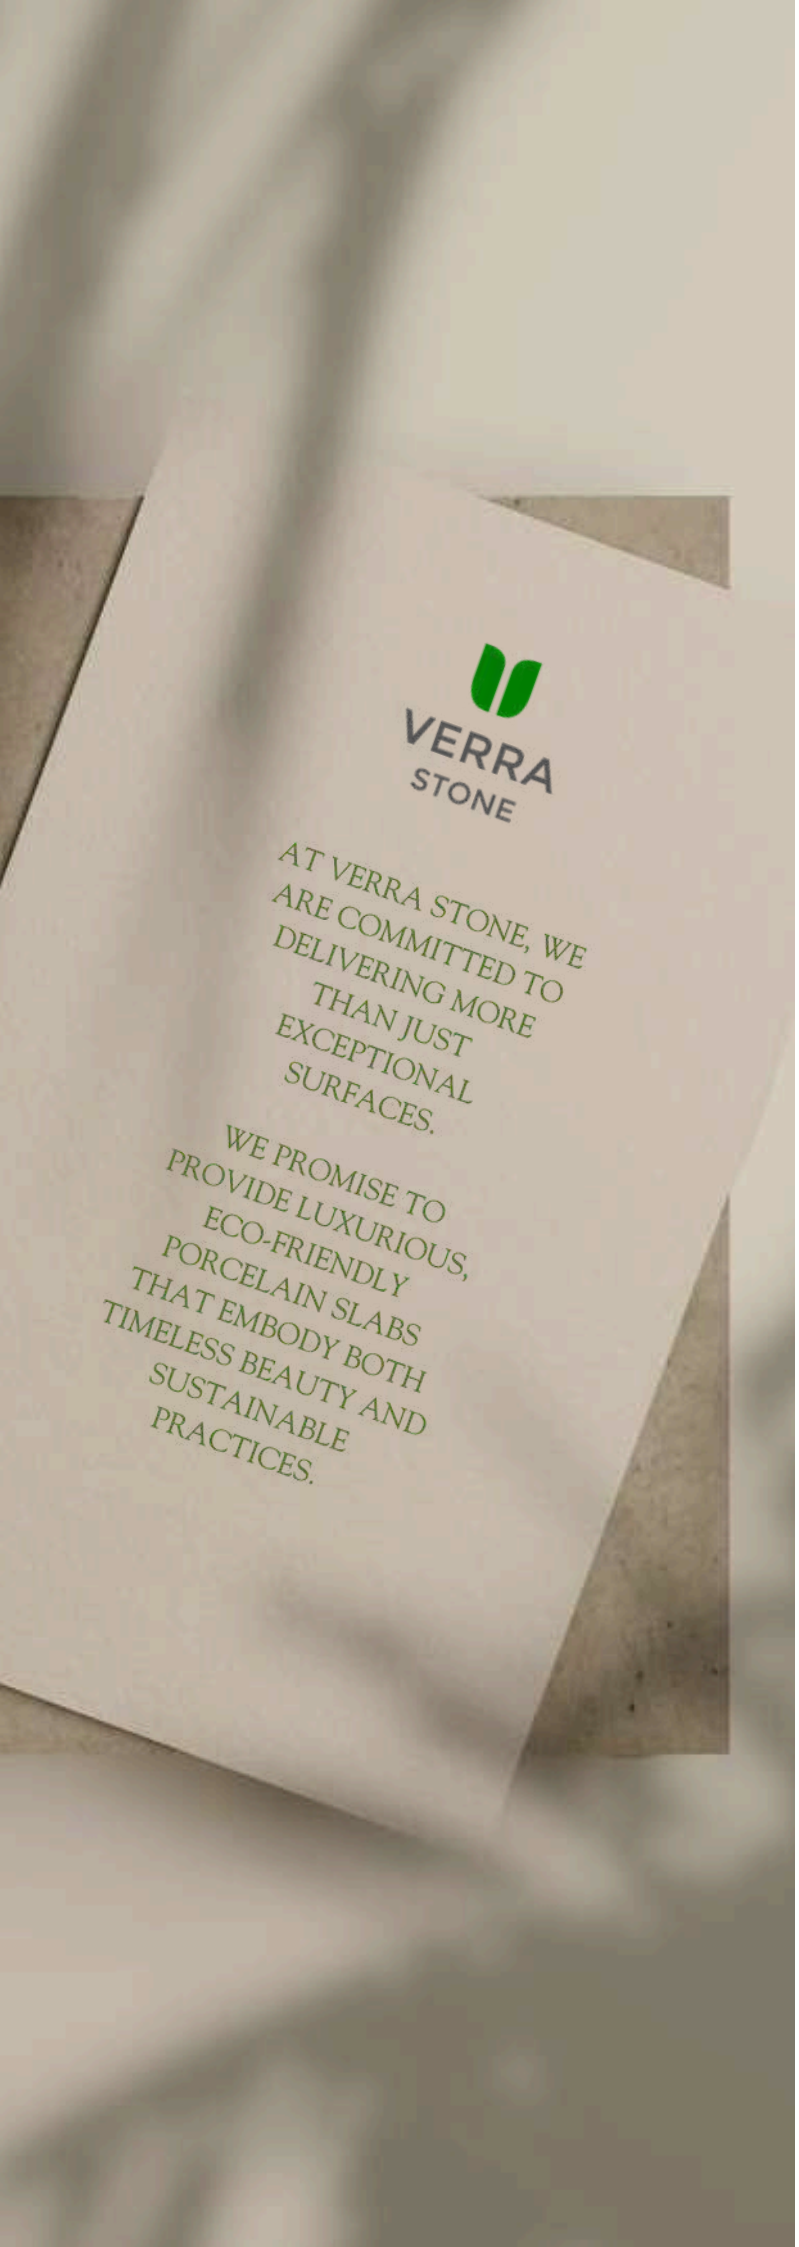

Silk
SURFACE

Silk Surface, crafted with high-temperature fine-grained grits as the surface material. After firing, these particles form a uniform layer that offers excellent abrasion resistance, low water absorption, and superior stain resistance. The resulting color embodies the aesthetic essence of natural stone.

WARRANTY

VERRA STONE IS BACKED BY A COMPREHENSIVE **15-YEAR WARRANTY**, ENSURING YOUR PEACE OF MIND, SATISFACTION AND TRUST IN THE MATERIAL.

THE BENEFITS OF SINTERED STONE

- **Scratch Resistance:** Engineered to withstand scratches and wear, Verra Stone surfaces retain their beauty over time, ensuring your home remains looking its best.

High Uv Resistance

- **UV-Resistance:** Verra Stone surfaces do not fade with time, maintaining their vibrant colors and patterns indefinitely.

- **Easy Cleaning:** With a simple wipe, your Verra Stone surfaces remain clean and hygienic, reducing the need for harsh chemicals or extensive maintenance routines.

- **Heat Resistance:** Perfect for kitchen countertops and fireplace cladding, Verra Stone surfaces can withstand high temperatures without compromising their integrity.

Low Water Absorption (Less Than 0.1%), Nonporous

- **Stain Resistance:** Our non-porous surfaces are resistant to stains, making them easy to clean and maintain, even in high-traffic areas or food preparation spaces.

- **Non-Porous and Anti-Bacterial:** Our surfaces are ideal for areas requiring high hygiene standards, such as hospitals and food preparation spaces, as they do not harbor bacteria.

DISCLAIMER

Every care is taken to ensure that the brochure colour samples are as close as possible to the real thing, but there may still be differences, due to the printing process. Ask to see an actual sample cutting and preferably, ask to view the entire slab in person, before making your final decision.

Verra Stone cannot be held responsible for any difference in the colours represented here to that of the actual product. Subject to our standard terms and conditions of sale, Verra Stone warrants only the performance properties of our products as set out in our technical data sheets.

The information and statements herein are believed to be reliable but are not to be construed as a warranty or representation for which Verra Stone assumes responsibility, legal or otherwise. Users should undertake sufficient verification and testing to determine the suitability of their own particular purpose of any information or products referred to herein. No warranty of fitness for a particular purpose is made. Nothing herein is to be taken as permission, inducement or recommendation to practice any patented invention without a licence.
