

# Wavo Boom Arm

## Microphone Arm with Desk Clamp, Cup & Headphone Holder

SKU JB01803-BWW

### Overview

The Wavo Boom Arm is a strong and silent microphone support for all content creators, especially designed for streamers, podcasters and reviewers.

The rated payload of up to 1kg and the integrated 1/4" ball head allows perfect compatibility with all microphones and with compact cameras.

The Wavo Boom Arm features a high-quality matt black shell that streamlines the look and protects the user from accidental pinches. USB and XLR's cables are both easily hidden under the customizable cable channels (red or black).

The Arm features a strong and protected table clamp with handy cup and headphones holder combo and an additional grommet for center-desk mounting.

### Applications

- Microphone Boom Arm for streamers and podcasters
- Quick and steady mic positioning, up to 1kg payload
- Clean multicolor stripes hide the cable for a tidy modern look
- Universal attachment allows microphones and camera connection
- Comfortable, solid aluminum cup and headphones holder
