Focus with activity zones

Take action with one click from your lock screen

Back up securely with up to 30-60 days cloud storage

Theft replacement if your camera is stolen

Battery Life & Accessories

- Arlo Pro 5 battery lasts up to 8 months with average use, or up to 12 months in stretch mode
- To recharge simply remove the camera, bring it inside and charge using the magnetic cable provided
- You can choose to purchase an outdoor magnetic cable and have the camera wired through to your mains power. Or you can purchase our dual-battery charging station so you always have a second battery ready to swap.

TOP TIP

Save money on your energy bills and never worry about charging your camera by purchasing the Arlo Pro Solar Panel for continuous charging.

Why is the Arlo Pro 5 Spotlight camera the best choice?

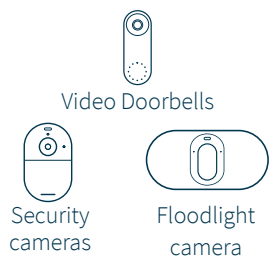

- Superior image quality with our best ever colour night vision for crystal clear videos 24/7.
- 12x zoom with 2K HDR video that lets you capture important details with clarity.
- Direct to Wi-Fi dual-band connectivity and simple QR code set-up you can secure your home 2x faster than cameras requiring an additional Hub.
- Features Arlo's most advanced security features including deterrent siren and spotlight.

Help your customer build their home security system

The Arlo Pro 5 allows you to capture every detail with our most advanced colour night vision. Easy to install with dual band Wi-Fi and long lasting protection with extended battery life. For customers looking to complete their home security system they can pair their Pro 5 with other Arlo devices.
