## VacuPedi

*Electrical callus remover with vacuum system*

**Well groomed, soft feet in seconds with Silk'n VacuPedi. This smart electric callus remover works with rotating grinding discs and an built-in vacuum system. It removes calluses and rough skin from your feet with no hassle or inconvenience and, more importantly, no mess! It vacuums up dead skin cells and provides a hygienic treatment. Furthermore, because this device is rechargeable, no batteries are required.**

### **Why Silk'n VacuPedi?**

- Electric callus remover with built-in vacuum system
- Vacuums up dead skin cells immediately into the device to prevent them from falling onto the floor
- Soft, smooth feet in seconds
- Painless, safe and easy to use
- 2 speed settings
- Up to 1,550 rotations per minute
- Rechargeable, can be used for up to 110 minutes on one full charge
- Including 3 grinding discs (Fine, Medium and Coarse) and 3 filters
- Includes USB cable and USB wall adapter
- New grinding discs and filters are available separately

### **New: electric callus remover with built-in vacuum system**

Silk'n VacuPedi works differently from most electric callus removers. VacuPedi effectively and safely removes calluses and rough skin with a fast-rotating grinding disc. The vacuum system in the head of the device has a replaceable filter that vacuums up all dead skin cells efficiently, keeping your floor clean. Calluses and dry skin disappear in seconds, so you can immediately benefit from beautifully soft feet.

### **Up to 1,550 rotations per minute**

The device has 2 speed settings, low and high. With up to 1,350 rotations per minute in the low setting and up to 1,550 rotations in the high setting, Silk'n VacuPedi ensures your feet are soft and smooth in a heartbeat. Just hold the device to the dry, hard skin for a few seconds to file it safely. Due to its ergonomic design, the device is easy to use and painless.

### **No batteries required!**

With Silk'n VacuPedi, no batteries are required because the device is rechargeable. On one full charge, it can be used for up to 110 minutes. Recharge VacuPedi via your computer or wall socket, using the accompanying USB cable and USB wall adapter. You can thus always rely on having a powerful device that looks after your feet effortlessly in every situation without needing to buy new batteries.

### **Including 3 grinding discs and 3 filters**

Silk'n VacuPedi comes with 3 grinding discs and 3 filters. The grinding discs make the skin soft and smooth. Just attach one of the grinding discs to the device and let the device work its magic. You can choose between Fine, Medium and Coarse. The filter captures the dead skin cells. You can wash and replace this filter periodically.

#### **Technical feature of Silk'n VacuPedi**

Use for	Removes calluses and rough skin from dry feet, vacuums up dead skin cells and dust, for soft and smooth feet
Technology	Rotation technology
Power supply	Rechargeable battery
