LONG DESCRIPTION

Take your lighting decorations to a new level with smart LED lights Twinkly Cluster. Whether you're decking the halls for Christmas and the holidays, tricking out your gaming room, decorating for summer parties, or planning a romantic dinner, these premium, app-controlled, addressable LEDs were designed for extraordinary brightness and color quality in over 16 million colors and a full range of white light from warm white to cool white. Perfect for use both indoors and outdoors.

Twinkly lights are easy to configure via Bluetooth® and Wi-Fi and can be voice-controlled with voice assistants Amazon Alexa and Google Assistant. Once you've set up your lights, let the Twinkly App do the rest: it scans and maps each individual bulb, transforming your lights into a personalizable decorative display. You then get to apply virtually endless default effects and animations or create your own personalized ones.

For even more impressive decorations, combine your lights with Twinkly Music (sold separately), a USB device with a built-in microphone that interprets ambient sounds and music in your space and applies matching colors and effects to your lights. And for gamers, Twinkly seamlessly integrates with Razer Chroma™ RGB and OMEN Light Studio to take gaming to the next level with stunning lighting effects that react to gameplay.
