Unify OpenScape

Desk Phone CP110/CP210

The OpenScape Desk Phone CP family is expanding - updated with a fresh design language and the latest technology while maintaining a familiar user experience.

Intuitive, elegant and convenient

The ergonomic, user-friendly, and economical design language of the second generation OpenScape Desk Phone CP family are reassuringly made in Germany, built from quality materials, and are capably equipped to support a wide variety of user scenarios.

The devices deliver advanced functionality and crystal-clear HD audio quality while remaining simple to operate and without compromising performance.

Sustainability is a core value of the latest CP range of devices and is reflected in the choices made at every stage of development – from manufacturing power, materials and portfolio design, low energy technology employed through to the packaging design, supply chain, transport, and operational ownership. The CP110 and CP210 proudly bear the Energy Star certification.

OpenScape Desk Phone CP110

Interoperability

The OpenScape Desk Phone CP range is the perfect partner for all Unify platforms including OpenScape Business, OpenScape 4000 and OpenScape Voice.

Major Enhancements

Following customer and partner feedback the CP110 has been enhanced with the following capabilities that define the new standard for the range.

OpenScape Desk Phone CP210

Headset Support

The device now natively supports headset connection and use via a dedicated jack port and dedicated headset control key.

Gigabit Ethernet

The LAN connectivity switch module has been upgraded such that both ports now support 10/100/1000 MBit/s autosensing Ethernet.

Opus Codec

The Opus codec is now incorporated to provide the best call experience even during changing network conditions.

4096-bit Security Key Length

Supports very high strength RSA encryption keys.

ENERGY STAR PARTNER

Atos

OpenScape Desk Phone CP110

The OpenScape CP110 offers a low-cost but high value entry point to the next generation family IP devices.

The perfect low-cost, high value device for multiple user scenarios without compromising quality.

Display

- Graphical three-line display (162 x 48 pixels), monochrome
- Signaling LED (red).

Connectivity

- 2 x 10/100/1000 Mbit/s autosensing Ethernet LAN ports with integrated switch
- Energy Efficient Ethernet (EEE) 802.3az support
- Headset Port for cord connected (121 TR9-5) and cordless headsets (121 TR(-5˚)
- Passive RFID Tag.

Keys

- 3 programmable function keys with Soft Label on LCD.
- Pre-assignment: call log, forwarding , re-dialing
- 2 fixed function keys: settings , messages
- 3-way navigator plus OK key
- 3 audio function keys (mute/loudspeaker/headset)
- Volume +/-
- Open listening/hands free speaking (full duplex).

OpenScape Desk Phone CP110

VoIP Protocol Support

- SIP
- Cornet IP / HFA

Placement

- Base, with two different height adjustments
- Wall mountable (via the optional wall mount kit)
