2.1 Classification of the substance or mixture				
GHS07	Eye Irrit. 2A H319 Causes serious	eye irritation	Regulation (EC) N	No 1272/2008

Information concerning particular harards for human and environment: This product has to be labeled according to the "General Classification Guideline for Preparations of the EU".

Classification system: The classification is according to the EU Regulations and extended by the company and litterature data. The classification is in accordance with the latest editions of the international substances lists and is supplemented by information from technical literature and by information provided by the company. For Classification and Labelling information, see Section 16. For full text of H-statements, see Section 16.

2.2. Label elements

Labeling according to Regulation (EC) No 1272/2008

The product is classified and labeled according to the CLP regulation.

Product does not contain listed SVHC substances.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information

In case of accident or if you feel unwell, seek medical advice immediately (show safety data sheet if possible).

After inhalation

In case of accident by inhalation: remove casualty to fresh air and keep at rest. In case of irritation of the respiratory tract

seek medical advice.

After contact with skin

This product does not irritate skin. In case of skin irritation, remove contaminated clothes and wash skin immediately with water and soap.

After contact with eyes

Rinse immediately carefully and thoroughly with eye-bath or water. In case of troubles or persistent symptoms, consult a

doctor.

After ingestion

Clean mouth with water. Drink plenty of water. Do not induce vomiting. Seek medical advice immediately. Never give anything by mouth to someone unconcious.

4.2. Most important symptoms and effects, both acute and delayed

No information available.
