PRODUCT DESCRIPTION

The BISSELL® CrossWave® X7 Plus Cordless Pet Pro is the next generation Wet & Dry Cleaner for Homes with Pets. This powerful and lightweight device is the perfect solution for all your cleaning needs; from quick vacuuming to thorough wet cleaning. The durable 45000 RPM high performance digital motor provides strong suction and up to 30 minutes of cordless freedom.*

When wet cleaning, it vacuums and mops at the same time, across sealed hard floors and area rugs, combining cleaning steps and saving you time. Unlike when you use a mop and bucket, our Two-Tank Technology keeps the clean and dirty water separate. Therefore, with the CrossWave X7 Plus, you always clean your floors with fresh water. Our pet parent engineers incorporated three different cleaning modes: Hard Floor Mode, Area Rug Mode and TURBO PET™ Mode. The new TURBO PET™ mode boosts cleaning performance, especially for pet messes and everyday stuck-on messes. Natural Multi-Surface Pet cleaning solution eliminates pet odors leaving your home smelling fresh. When you're done cleaning your floors, the self-cleaning cycle not only cleans the brush roll, but also the inside of the machine so that there is less clean-up after cleaning.

Also, you can use the CrossWave® X7 Plus for occasional vacuuming. Thanks to powerful suction, the device will easily pick up pet hair and dry debris from your hard floors. CrossWave® X7 Plus Cordless Pet Pro multi-surface cleaner also has LED headlights to illuminate pet hair, dirt and debris while cleaning along baseboards and in corners. This machine doesn't just clean up after pets, it helps save them! BISSELL® proudly supports BISSELL Pet Foundation® and its mission to help save homeless pets. When you buy a BISSELL® product, you help save pets, too. We're proud to design products that help make pet messes, odours and pet homelessness disappear.

*may vary based on mode and usage

KEY FEATURES / SPECIFICATIONS
