

# Silk'n™ SonicYou

## **Sonic electric toothbrush. Charge once, up to 300 days battery life\***

Ever wanted to brush your teeth, just to find out the battery is empty? Not with the Silk'n SonicYou electric toothbrush. Charge once and enjoy a charged battery for up to 300 days\*.

- Charge once, up to 300 days battery life\*
- Up to 37,000 vibrating brush strokes per minute
- Available in various trendy colours
- 3 brushing modes, interval timer and waterproof
- Incl. 2 brush heads and 2 brush head cases

## **Up to 300 days battery life**

The SonicYou is a real powerhouse. Charge the toothbrush once and enjoy an extensive battery life of up to 300 days\*. When the battery is low, the battery indicator lights up. You can then continue to use the SonicYou for another 25 days\*. Enjoy brilliantly clean teeth without ever needing a charger on your travels.

## **Powerful sonic toothbrush**

The SonicYou produces up to 37,000 vibrating brush strokes per minute. With 3 different brushing modes (Sensitive, Clean and White), SonicYou removes plaque and impurities more effectively than a manual toothbrush. It can clean the hard-to-reach areas and cleans deep between the teeth. Coffee, tea and wine stains are easily removed for a brilliant smile. To make things easier, SonicYou remembers the last selected brushing mode. Tip: Brush for at least 4 minutes a day for quick results.

## **Silent**

Amazingly, this powerful sonic toothbrush with <67dB is almost silent. So, you won't wake anyone up when brushing your teeth.

## **100% waterproof**

Want to brush your teeth in the shower? No problem! This electric toothbrush is waterproof (IPX7) and can also be held under running water.

## **Brush heads**

- Provided with soft, rounded Dupont bristles
- Suitable for sensitive gums and teeth
- Each brush head has a symbol so you can identify your different brush heads
- The SonicYou includes 1 Medium brush head, 1 Soft brush head and 2 brush head cases
- The brush head contains several bristles at the top and bottom that fade over time, reminding you to replace it

## **Timers**

The SonicYou has 2 timers which help you brush effortlessly. The interval timer gives out a signal every 30 seconds, so you can be sure that you have cleaned each quadrant of the teeth equally. The 2-minute auto shut-off timer ensures that the brush switches off automatically each time.

## **Trendy colours and dynamic display**

With several trendy colours, there's one for everyone. Choose the colour that suits your personality or bathroom. The dynamic display shows the settings and the battery level, making tooth brushing much more fun.

\*When used in the Sensitive mode, twice a day for 2 minutes.
