About us

KOBALJ.com is an online marketplace that brings wineries from across the world and wine customers directly together. Wine customers (co-)buy wine collectively in bigger quantities and thus get wine at more attractive prices. As there is no wholesaler included, wineries achieve better prices too. A win-win situation for everyone!

We started in Copenhagen, Denmark, in 2020. Two years later we operate and connect wineries from 18 markets directly with consumers in Denmark, Sweden, Germany and Austria.

We are 24 great colleagues waiting for you to join us on an adventure you will never forget. We are all super busy growing our company, but we never forget to have fun. We enjoy breakfast together once a week and we love to hang-out together in our Friday wine-bar and have many social events throughout the year.

We are all 100% committed to a mission of helping wineries get access and sell directly to consumers in the whole world.

Why does KOBAJ exist?

To make the lives of small wine-makers easier and more meaningful. Easier by selling directly from their farm. Meaningful by connecting directly with the people drinking their wine.

Vision

To introduce, grow and establish a world-wide platform connecting winemakers and consumers in commerce. We are introducing a new way of selling and buying wine. Directly from farmers. We will not stop before it becomes the new normal. We aspire to become world-leaders in our space.

Mission

Liberating and old industry and giving life to an old dream of connecting and trading direct. To fuel and accelerate the transition of the wine-industry. Making it a better place for both makers and buyers.

Values

Teamwork, we help each-other. Nobody says no to help when colleagues need it, and nobody is too cool to empty the trash.

Dreamers

We challenge status quo, make the impossible possible, go where no man has yet been, - and run with high ambitions and dream of a better future.

People-Focus

It's all about people. From the farmer to the buyers and back to us. We only succeed together.

Honesty

We are always honest. With that we drive change and develop ourselves to become better. We give respectful feedback, listen, learn, acknowledge and grow us and the company. We are great at many things and shit at others. We hate pretenders!
