

PRESS RELEASE

Natec Medical Ltd announces the acquisition of the Ethylene Oxide sterilization activity of Maurister Co Ltd

Natec Medical Ltd and Maurister Co Ltd have announced today the merger of their business operations in medical device manufacturing to offer a global integrated solution to their customers. Natec Medical Ltd will acquire the assets, employees and customer contracts of the Ethylene Oxide (ETO) sterilization activity of Maurister Co Ltd. The merged business will operate under Natec Medical Ltd.

Maurister Co Ltd, founded in 2005, in Mauritius, is the only ISO 13485:2016 and ISO11135 certified ETO sterilization facility in the Indian ocean. Maurister has been a key player in the sterilization activities of medical devices for regional companies.

Natec Medical Ltd, founded in 1998 in Boston, Massachusetts, USA, relocated its Headquarters to Mauritius in 2000 and is primarily involved in the design and manufacture of medical devices for the treatment of cardiovascular and peripheral arterial diseases. Natec Medical has collaborated with numerous companies by providing OEM solutions bringing affordable healthcare to the society.

“The mission of Natec Medical is ‘Our products save lives every day!’. Providing a vertically integrated service is key to bring the perfect service to our customers. Having Maurister integrated under the Natec Medical banner will strengthen our product offering by simplifying the operations for our customers” explains Vincent Lagarde, CEO & Founder of the Natec Medical group of companies. “With Natec Medical investing in highly qualified personnel to support its growth strategy, it was wise to integrate the Maurister services in Natec to have a single-provider point of access to our customers. This action consolidates our position to provide high quality products and timely service provision for sterilization activities”.

Sterilization activities will continue to take place in Maurister facility at Geoffrey Road, Bambous. All contracts, order management and billing processes will be transferred and managed by Natec Medical team.
