

## **Metabolic Syndrome**

Metabolic syndrome is a cluster of conditions that occur together, increasing your risk of heart disease, stroke and type 2 diabetes. These conditions include increased blood pressure, high blood sugar, excess body fat around the waist, and abnormal cholesterol or triglyceride levels.

Join us for a FREE Seminar on self-care and minimizing your health risk.

## Tuesday, January 14 6:30 p.m. Palisades Medical Center Auditorium 7600 River Road, North Bergen

Presentation by Sonal Pathak, M.D. and Jeffrey Fein, DO

Free Parking and Refreshments
