

# A PATH TO ADDICTION

Many people turn to heroin after "liking" the feeling of prescription pain killers or opiates such as Oxycodone and Percocet

"We are a society that does not want pain and wants something to 'fix it'. You have dental work or a car accident and you receive pills, "This is where heroin addiction begins".

"Those pills are pill Heroin"

"You have 30 bags of Heroin in your medicine cabinet", said Lewicki.
