

MUNICIPAL BUILDING
BOROUGH OF RUTHERFORD

Department of Public Works

Dear Resident,

As the Department of Public Works transitions to automated recycling collection, an automated recycling cart (color blue) will be delivered to your residence. Please note: this is cart is to be used for recycling only. The estimated date of delivery will be February 29, 2016. Each cart has a specific number so that we can track its location. This cart is to be used exclusively upon delivery. This cart is for recycling only. Bottles, cans, paper, and cardboard are to be placed together in the cart. Please avoid wedging cardboard in the cart. Please place the cart in the street with the wheels against the curb, (wheels facing your home). Please follow the same placement procedures as the green garbage containers. Please leave 3 feet on either side of the cart to assist with collection. A picture of proper cart placement is provided below.

Thank You,

Chris Seidler
Superintendent
