Funding Sources Available for Medical Accommodations in Canada

Dear Healthcare Team,

Firstly, we want to thank you for being strong advocates for your patients. We recognize the challenges and hard work that go into helping patients in need while navigating other hurdles like patient accommodations along the way.

It is challenging and time consuming to find and secure accommodations that are suitable for medical patients, as is the financial aid that is sometimes needed. Information is disjointed, not publicly accessible, and constantly changing.

StayWell Patient Accommodation Funding Guide

We're happy to introduce a tool that helps with these challenges. **The StayWell Medical Accommodation Funding Guide** aims to assist healthcare support teams with finding and accessing patient funding opportunities in Canada. This guide is reviewed and updated bi-annually and provides a list of government / private funding sources. The Guide provides a list of government and private funding resources available to patients, and information on access and eligibility criteria.

About StayWell

Our mission is to provide accessible accommodations to patients and their families requiring relocation for medical treatment. We match patients with affordable accommodations close to major hospitals. We partner with select hotels and furnished apartment providers for short and long term needs and provide patients with access to fundraising tools to help subsidize accommodation if needed.

We look forward to hearing from you if you are interested in learning more, or if you have an additional funding resource that could be added to this guide. Please email us at info@staywellsuites.com.

Sincerely,

Steven Argyris
StayWell CEO
