Description

The TA arm is part of a diverse family of arms that allow for many mounting configurations that meet almost any project design requirements. These cast aluminum arms offer strength and durability while maintaining a classic design aesthetic. Matching well with traditional luminaires these arms can be pole or wall mounted in single or multiple head configurations.

Specifications

Material and Construction	The heavy wall sand cast arm uses a low-copper aluminum 356 alloy for enhanced corrosion resistance and high tensile strength. Cap and/or EZ Hangstraight mechanically attaches to the arm.
Hardware	Includes Stainless steel hardware. Most finishes will include hardware with a Black Oxide conversion coating. Light finishes will get non-color coated hardware (Whites and Silvers)
Finish	Our 6 Stage Polyester Powder coat paint system offers a beautiful high-end finish that holds up to even the most extreme environments. Each part is inspected for quality and consistency before being released for shipment. Our system exceeds AAMA 2604, AAMA 2605, ASTM D523 and ASTM D4214 requirements.
Traditional Finish	Traditional paint finishes are available in Sternberg Lighting's Traditional product line. A range of colors help accent the decorative elements on the product. Finishes are available in textured or smooth. Available finishes include: Black, White, Park Green, Architectural Medium Bronze and Dark Bronze
Sternberg Select Finish	The Sternberg Select antique-inspired palette adds a touch of vintage elegance to modern applications. Old World Gray Textured is a 1 part powder coat with metallic flakes. Verde Green and Swedish Iron is a 2 part finish that includes a powder coat base coat with a hand applied antique top coat. The top coat is unique to each application and changes over time.
Custom Finish	Custom finishes are offered to adapt to any application. Rust, Weathered Brown and Cedar are special 1 part powder coat finishes with a distinctive look. Old Iron and Weathered Black are 2 part finishes that includes a powder coat base coat with a hand applied antique top coat. The top coat is unique to each application and changes over time. Two-Tone and Custom Match options are available to blend Sternberg product with the site, consult factory for more information.
Mounting Style - Side Post Mount (PM)	This "Post Mount" style includes a curved or flat backplate to match the pole profile. The arm mechanically attaches to the pole with included hardware.
Mounting Style - Post Top (PT)	This "Post Top" style includes a fitter to slip fit a 3" OD x 3" tall tenon on a pole. The arm mechanically attaches to the tenon with included hardware.
Mounting Style - Wall Bracket (WB)	This "Wall Bracket" style includes a flat aluminum WB backplate. The backplate is large enough to cover a standard J-Box. The backplate is meant to be installed OVER the J-Box directly to the wall to support the weight of the fixture. Hardware to mount the backplate to the wall is by others.
Caps	A variety of cast aluminum caps are available to adorn the post top version of the arm. Most caps are held in place with stainless steel hardware.
Warranty	5-year limited warranty (See Website for Terms and Conditions)
