Attachments (comes with key cabinet)

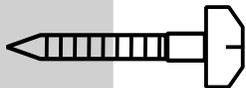

■ screws x 2pcs

■ wall plug anchor x 2pcs

How to mount on wall

on woods

1. Mark on wall where screws go in.
2. By using screw driver, turn the screws into wall.

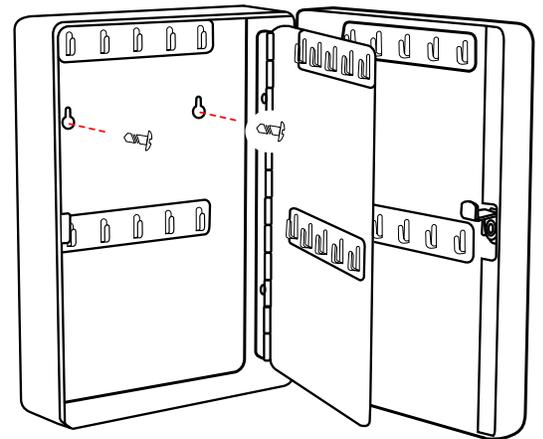

on concrete

1. Mark on wall where screws go in.
2. Drill on wall for plastic plug anchor.

(Diameter 6mm x 30mm depth)

3. Insert plastic plug anchor into the hole,
turn the screws into the holes.

Caution !

1. In order for the product to be removable from the wall,
 2. please leave a space about 3mm between the top of the screw and wall.
 3. Please ensure that all two screws are used and fixed properly.
- The wall must be strong enough for the screw of 2cm or longer to attach the product securely.
4. Please use screws include or screws with screw head of 7mm in diameter.
