1. ELIGIBLE CUSTOMERS

We currently provide Services and make Third-Party Services available to End Users who are natural persons with citizenship or residency in an EEA Contracting State or Switzerland. However, “**Payment Cards**” are only available for EEA residents.

2. KYC REQUIREMENTS AND THRESHOLDS

An End User account is created for eligible individuals who have completed the KYC.

The primary requirements are as follows:

- For account creation (**Tier 1**), the eligible End User is required to provide the following:
 - **Proof of Identity (POI)**: a document valid for travel within the EEA (for EEA citizens – national identity card or passport; for non-EEA citizens – passport).
 - **Selfie**.
 - In the case of non-EEA citizens residing in the EEA, a **second Proof of Identity (POI2)**: a valid residence permit issued by an EEA Contracting State. In certain limited cases, we can accept an identity card issued by an EEA Contracting State as POI2.
 - In some cases, we may also require a **Proof of Address (POA)** document in Tier 1 to approve KYC.
- Once the value of an End User’s inbound transactions reaches EUR 15,000 in Virtual Assets or EUR 25,000 overall (**Tier 2**), the End User is required to provide the following:
 - **Proof of Address (POA)** document (if not provided in Tier 1): either a utility bill (such as for electricity, gas, water, or landline) or an account statement (such as from a payment institution or a bank). Mobile bills are not accepted. The document must be in the End User’s name and match the address provided by the End User. The document must not be older than three (3) months.
 - **Source of funds** information and document(s).

Tier 2 thresholds are subject to change without prior notification and may be applied differently in a specific case. The End user has a 30-day period to complete their Tier 2 verification, during which full account functionalities remain accessible.
