SKY Perfect JSAT Corporation

### **SKY Perfect JSAT Secured a Project to Provide SAR Earth Observation for a government agency**

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; Representative Director, President & Chief Executive Officer: Eiichi Yonekura; “SKY Perfect JSAT”) has secured a new project to provide Synthetic Aperture Radar (SAR)\*<sup>1</sup> data from low Earth orbit (LEO) Earth observation satellites to a government agency. SKY Perfect JSAT will deliver satellite imagery data captured by small SAR satellites operated by Institute for Q-shu Pioneers of Space, Inc. (Head Office: Fukuoka City, Fukuoka Prefecture; President and Representative Director CEO: Shunsuke Onishi; “iQPS”), a startup company based in Kyushu and a key partner in this initiative. The data provision will continue through March 31, 2026.

[Sample: Observation Imagery from a small SAR satellite of iQPS]

Test Observation SAR Image of Musashi-Kosugi Station Area (Kawasaki City, Kanagawa Prefecture), captured as the First Light\*<sup>2</sup> of the small SAR satellite QPS-SAR-11 “YAMATSUMI-I” on Wednesday, July 2, 2025

SKY Perfect JSAT and iQPS have built a long strategic partnership, working closely together to leverage data from iQPS’s small SAR satellites. Through this collaboration, we have strengthened our cooperation in satellite data utilization and related initiatives. SKY Perfect JSAT will continue to deepen its cooperative relationship with iQPS, aiming to expand its space business with various government agencies and broaden its market reach both domestically and

internationally.

<sup>\*1</sup> SAR (Synthetic Aperture Radar) : A radar system that utilizes radio waves to acquire imagery of the Earth's surface. It is capable of penetrating clouds and smoke, allowing for consistent observations both day and night.

<sup>\*2</sup> First Light: The first image captured by a satellite after its initial operation begins.

## **Company Overview**

### About SKY Perfect JSAT

Headquarters: AKASAKA INTERCITY AIR, 8-1, Akasaka 1-chome, Minato-ku, Tokyo

Representative: Eiichi Yonekura, Representative Director, President & Chief Executive Officer

Established: November 1994

Business Overview: SKY Perfect JSAT is a unique company that drives both Space and Media businesses in parallel. In our Space Business, we operate geostationary satellites to provide reliable communication services, while also advancing our Space Intelligence Business by utilizing satellite imagery data from our own low Earth orbit (LEO) earth observation satellites. We also provide services in various fields including national security, supporting a wide range of social and industrial needs. In our Media Business, we operate “SKY PerfecTV!”, a multi-channel pay-TV and video streaming platform, offer media solutions and fiber-optic retransmission services through our Hikari Alliance, and are actively expanding into global IP development—including anime-related content—to further diversify our portfolio.
