

## **Advanced - Story 22**

**Class Objective:** I will be able to read the story, learn new vocabulary and answer the questions based on it.

### **Concept A: Story:**

#### **Crab Story**

Once upon a time there were three crabs. Daddy crab, Mummy crab and Baby crab.

They lived in a rock pool at the seaside. Twice a day, the tide would come in and refill their rock pool with fresh seawater.

"What's beyond our rock pool?" Baby crab asked one day.

"Danger," Daddy crab replied, there are seagulls and other things that would eat you."

"Well I want to see." Baby crab said.

"No you should stay here." Mummy crab replied. "You don't want to go exploring, you might get lost."

But Baby crab was a naughty crab, he waited until both his parents were asleep under their rocks and the tide was in and then he walked sideways towards the top of the rock pool. He slipped over and suddenly fell into another pool.

He looked about and there were red things sitting on rocks waving. He waved back.

The red things just continued waving. How rude he thought.

He went over to one and touched the red arm. The arms all suddenly shot inside.

"Hello," he said. The red waving things continued to ignore him.

Suddenly he realised that he was all alone and the red waving things no longer looked friendly; they looked scary. "Mum, dad," he gurgled, but there was no reply. Suddenly he saw a large orange thing move slowly towards him.

"Where's my baby?" Mummy crab shouted when she woke up the following morning, getting ready for a good morning of sifting through sand, feeding."

1. **Introduction**

This document describes the system architecture and the components of the system.

2. **System Architecture**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

3. **System Flow**

- 1. **System Flow Diagram**
- 2. **System Flow Description**
- 3. **System Flow Details**

4. **System Details**

- 1. **System Details Description**

5. **Conclusion**

This document describes the system architecture and the components of the system.

This document describes the system architecture and the components of the system.

6. **Appendix**

- 1. **Appendix A**
- 2. **Appendix B**
- 3. **Appendix C**

7. **References**
