Talking about lessons from your childhood which have most impacted your worldview?

Class Objective: I am able to talk on the given topic with an open-mind, having a strong view point.

Concept A: Introduction

If there would be lessons that have made an impact in your life and somehow contributed to your core values today, those were learned during your childhood. Just like everyone else, you have experienced childhood. If you had a normal and pretty good share of childhood memories and experiences that you treasure a lot, then always be so grateful because you are blessed to have a solid family foundation- your parents who instilled good moral values when you were a child.

More than the values you've been taught, be thankful for the life experiences that they allowed you to face, it has shaped your character and has taken you to places that you never thought you would be.

Concept B: Important lessons from your childhood

A. YOU ARE ACCOUNTABLE FOR YOUR OWN ACTIONS

   Accountability, whether personal or indirect responsibility, is a serious matter. For whatever behavior we possess and how we respond to certain situations, it always has consequences that we have to face.

B. CHEATERS NEVER WIN

   Whether in school, work or life in general, the temptation to do something dishonest to get ahead may tempt us but we must always remember that cheating is a form of self-deception. In life, honesty and fairness must always prevail.

Date: February 3 | 4:00-5:00pm

Present: Brandon (driver), Jasmine (navigator), Collin (reviewer)

Agenda

1. Discuss milestone goals
2. Implement testing
3. Discuss deliverables

Minutes

1. We confirmed the milestone requirements on the google doc. Focus this development on testing, unit testing, and basic deliverables.
2. Brandon, Jasmine, and Collin did pair programming and navigated who was the main editor for the implementation of testing. We used a combination screen and in-person coding this time.
3. We all learned about how we could implement deliverables and their outlines.

Next Action Items

1. Prepare for the coding tomorrow by reviewing calls about testing and also to implement/log and compiling.

Meeting #3

Date: February 4 | 8:00-9:00pm

Present: Brandon (driver), Jasmine (navigator), Collin (reviewer)

Agenda

1. Complete testing and unit compiling
2. Create deliverables
3. Milestone report

Minutes

Date: February 3 | 4:00-5:00pm

Present: Brandon (driver), Jasmine (navigator), Collin (reviewer)

Agenda

1. Discuss milestone goals
2. Implement testing
