

Basic Conjugations and common verbs

Class Objective:

I will be able to learn and use the Basic Conjugations and common verbs in Dutch.

Concept A: Introduction

Verbs are used to describe someone, something that can be performed, or an event that is happening.

Examples:

- Lopen - to walk
- Koken - to cook
- Fietsen - to cycle

There are 8 different tenses in Dutch.

- Most Dutch verbs are regular verbs, 'zwakke werkwoorden' (weak verbs), these are verbs that are all conjugated the same way.
- The Dutch language also has many irregular verbs, known as 'sterke werkwoorden' (strong verbs), which conjugate differently in some of the tenses. These can be grouped together to make it easier to remember how to conjugate them.
- There are 6 completely irregular verbs, that are not actually irregular in every tense.
