What if Superman exists in real life?

Class Objective : I am able to write a creative passage on the above topic.

Concept A: Introduction

Superman is known to have an exceptional or extraordinary power or ability where he does something very dramatic and interesting. This power is a specialized skill that enhances and transforms everything around him ultimately creating peace and happiness in the world.

Concept B: Vocabulary

- Invulnerable- impossible to harm or damage.
- Fictional-imagined
- Heat vision- It is the ability to release massive amounts of solar energy stored within the body through the eyes, in focused beams of heat
- Epitome- a person or thing that is a perfect example of a particular quality or type.
- Empathize- understand and share the feelings of another.
- Genius- exceptional intellectual or creative power or other natural ability.
- Inspiration- the process of being mentally stimulated to do or feel something, especially to do something creative.

Concept C: Sample Passage

Superman is a fictional superhero from American comic books. He is from an interesting, fictional planet called Krypton. His real name is Kal-El. He is one of the strongest heroes. Superman is known to fly and move “faster than a speeding bullet.” He is a powerhouse of powers. He is incredibly powerful such that he “bends steel in his bare hands.” He is invulnerable to everything that is Earth-made. He doesn't get hurt by bullets, lasers, missiles, fire, bombs, etc. He has superpowers, he can see through almost anything, hear through as well. He is known to have heat vision.

So with all these powers, what if Superman existed? It would be a different world altogether!

Superman is the epitome of bravery, strength, truth, justice, and hope. He is a true hero with endless abilities that makes him everyone's favorite.
