3. **System Components**

- 1. **System Overview**  
The system is designed to provide a comprehensive solution for managing data and resources. It consists of several key components that work together to ensure efficient operation.
- 2. **System Components**  
The system is composed of the following main components:
  - Database Layer:** Responsible for storing and retrieving data.
  - Application Layer:** Handles the business logic and processing.
  - Presentation Layer:** Provides the user interface for interacting with the system.
- 3. **System Flow**  
The system flow describes the sequence of operations and data flow between the components.

4. **System Flow**

- 1. **System Overview**  
The system flow illustrates the process from user input to data storage and retrieval.

5. **Conclusion**

This document provides a detailed overview of the system architecture.

The system is designed to be scalable and flexible, allowing for future enhancements.

1. **Introduction**

This document describes the structure and content of the course.

2. **Objectives**

- 1. Understand the basic concepts of the course.
- 2. Apply the concepts to solve problems.
- 3. Develop the ability to work in a team.

3. **Structure**

- 1. The course is divided into three main parts: theory, practice, and assessment.
- 2. The theory part covers the basic concepts and principles of the course.
- 3. The practice part involves solving problems and working in a team.
- 4. The assessment part consists of a final exam and a group project.

4. **Assessment**

- 1. The final exam will be held at the end of the course.

5. **Conclusion**

This document provides a brief overview of the course.

For more information, please contact the course coordinator.
