

Reading Comprehension on Articles relating to environment

Class Objective: I am able to read an article and answer questions related to it

Practice A: Lisez et répondez aux questions:

Quelles solutions pour le climat ?

Oui, il y a plein de solutions ! Et pour relever le défi, nous avons deux leviers entre les mains : s'attaquer aux causes du réchauffement de la planète et en limiter les conséquences.

S'attaquer aux causes du réchauffement

C'est la priorité des priorités ! Pour cela, il faut limiter au maximum nos rejets de gaz à effet de serre, surtout ceux de CO₂. Tout le monde doit s'y mettre !

Chacun de nous peut aider à limiter les émissions de gaz à effet de serre : éviter le gaspillage, réduire sa consommation d'énergie en isolant son logement, en s'équiper d'appareils économes en énergie, se déplacer le moins possible en voiture, en scooter ou en avion, préférer les fruits et légumes locaux et de saison...

De leur côté, les dirigeants discutent du futur de la planète lors de conférences internationales, notamment lors des Conférences des parties (COP). Dans leur pays, ils doivent ensuite trouver des compromis entre tous les acteurs de la société pour réaliser les engagements qu'ils ont pris.

Les industriels ont déjà amélioré leurs processus de fabrication pour faire des économies d'énergie et réduire le poids des matières premières et des emballages. Certains mettent au point des produits moins polluants et des produits écoconçus dont toutes les étapes de la vie du produit (de sa fabrication à son élimination) sont plus respectueuses pour l'environnement.

Les villes mettent en place des dispositifs tels que des Plans de déplacements urbains. Ils permettent de faciliter les déplacements en développant les transports collectifs, la marche et le vélo !

Limiter les conséquences du changement climatique

Limiter les conséquences du changement climatique, c'est s'organiser pour mieux prévoir les cyclones, protéger les côtes menacées par l'élévation du niveau de la mer, sauvegarder les espèces animales, cultiver des plantes mieux adaptées au changement climatique local, sauvegarder la faune et la flore sauvages...

QUESTION 1

Which of the following is NOT a characteristic of a good leader?

ANSWER

- 1. Selfish
- 2. Humble
