

Subjonctif with conjunctions (Bien que, pour que, a condition que, des que, de sorte que, avant que)

Class objective: I will be able to learn the concept of Subjonctif with conjunctions.

CONCEPT A: Subjonctif (Subjunctive)

- The subjonctif is a French mood or mode which expresses the speaker's opinion, desire, emotion, or uncertainty. We have already learned three other modes: indicatif (facts: le présent, le passé composé, l'imparfait, le futur, le plus-que-parfait), l'impératif (commands), et le conditionnel (conditional actions).
- The subjonctif will always be used in a sentence that has a dependent and an independent clause connected by "que" and can only be used in the present and past tenses. See its conjugations and uses below.

La conjugaison irrégulière (Irregular Stems)

- The first set of six verbs have irregular stems but follow the same endings as the regularly conjugated verbs (e, es, e, ons, ions, iez, ent).

	faire	pouvoir	savoir	aller	valoir	vouloir
stems	fass-	puiss-	sach-	aill- / all-	vaill- / val-	veuill- / voul-
... <i>que je / j'</i>	fasse	puisse	sache	aille	vaille	veuille
... <i>que tu</i>	fasses	puisses	saches	ailles	vailles	veuilles
... <i>qu'il/elle/on</i>	fasse	puisse	sache	aille	vaille	veuille
... <i>que nous</i>	fassions	puissions	sachions	allions	valions	voulions
... <i>que vous</i>	fassiez	puissiez	sachiez	alliez	valiez	vouliez
... <i>qu'ils/elles</i>	fassent	puissent	sachent	aillent	vaillent	veussent

- The remaining two verbs, avoir and être are completely and absolutely irregular. MEMORIZE THEM!!!!
