

Agree or disagree

**Class Objective: I will be able to participate in a good debate.**

### **Concept A: Introduction**

Agreement means being in harmony or accordance in the opinion or feeling of others.

It can be done by saying thank you, by stating the facts or observation, acknowledging the statement with feeling.

As such since we all have our own thoughts, opinions, and values we all have disagreements too. Like when we are discussing something we may agree with only some aspects of what is being discussed, hence disagreement has to be done respectfully, without sounding rude.

**Concept B: How to express your views on any topic.**

### **Few Examples**

- Should we travel outside the country or within the country?

### **Arguments for the topic/Agree:**

Traveling outside the country is exciting and gives us a wonderful exposure. It helps us to experience the beautiful diversity and variety of life. It helps us to deepen our knowledge and understanding of the new culture, traditions, people, food, and lifestyle.

Travelling overseas helps in increasing social awareness, relationships with others, and changes perspective on life. We can build new connections with people in trains and buses, flights and which can in turn become long lasting friendships. Travelling abroad

helps us to learn and understand a new language as we get to hear proper pronunciation, intonation, and accent. It makes us more empathetic and compassionate.

We can enjoy real-time climate, breath-taking landscapes, staying in different time-zones, explore the diverse ecosystems, people etc when you travel internationally.

### **Arguments against topic/ Disagree:**

1. **Introduction**

2. **Background**

3. **Method**

1. **Study Design**
2. **Study Population**
3. **Study Variables**

4. **Results**

1. **Descriptive Statistics**
2. **Univariate Analysis**
3. **Multivariate Analysis**

5. **Conclusion**

1. **Summary of Findings**

6. **Discussion**

7. **Conclusion**

8. **References**

9. **Appendix**

1. **Table 1**
2. **Table 2**
3. **Table 3**

10. **References**

1. **Introduction**

2. **Background**

3. **Method**

1. **Study Design**
2. **Study Population**
3. **Study Variables**

4. **Results**

1. **Descriptive Statistics**
2. **Univariate Analysis**
3. **Multivariate Analysis**

5. **Conclusion**

1. **Summary of Findings**

6. **Discussion**

7. **Conclusion**
