

Advanced - Story 23

Class Objective- You will be able to understand and learn the given topic.

Concept A: Story

The Sly Fox

The Fox was walking on the road and found a stick. He picked it up and went on. He reached a village and knocked on someone's door:

- Knock - knock-knock!
- Who is it? - someone asked.
- It's me - the Sly Fox. Let me spend the night at your house.
- There isn't enough space. There isn't enough space for us anyway!
- I won't cause you inconvenience. I will lie down on the plank-bed, my tail will be under the plank-bed, and my stick will be under the stove.

They pitied him and let him in.

The Fox lay down on the plank-bed, his tail - under the plank-bed, and his stick - under the stove. During the night, the Sly Fox got up and burnt his stick, and in the morning he started yelling.

- Where is my stick? I want my stick back! I won't leave without it. Only a hen can replace my stick.

The owner was startled. He thought and thought, and after all what to do - he gave him a hen. The Fox took the hen and while walking on the road sang:

The Fox was walking on the road,

and found a stick

and in exchange of it

The Sly Fox got a hen.

The Fox walked all day and in the evening he reached another village.

1. **Introduction**

This document describes the system architecture and the components of the system.

2. **System Architecture**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

3. **System Flow**

- 1. **System Flow Diagram**
- 2. **System Flow Description**
- 3. **System Flow Details**

4. **System Details**

- 1. **System Details Description**

5. **Conclusion**

This document describes the system architecture and the components of the system.

This document describes the system architecture and the components of the system.
