### **Concept B - Social media is effective**

#### **1. Networking without border**

One of the primary goals of any social networking site, networking is a primary feature any social media platform has to offer to consider the platform as a social networking site. One of the most important and noteworthy advantages of social networking sites is that it enables everyone to connect no matter which country they belong to.

#### **2. Instant News and Information**

Before the social media era, we used to communicate on email and instant messengers like Yahoo, AOL, and MSN. All those IMs and communication tools were mostly one to one communication. But on Social networking sites, communication can be one-to-many instantly. We do not have to look for the news by visiting different news websites, the news will find us on modern social networking sites like Facebook, Twitter.
