

Talking about the wonders of the world

Class objective: I will be able to understand the topic and converse on the same in Kannada.

Concept: About the wonders of the world

The seven wonders of the world are impressive monuments regarded with awe and wonder. In the past, there were the seven wonders of the ancient world that amazed people who had the fortune to see them. The new seven modern wonders of the world are: the Taj Mahal of India, The Great Wall of China, Christ the Redeemer statue of Brazil, Machu Picchu of Peru, Petra of Jordan, Colosseum of Italy, and Chichen Itza of Mexico.

The Great Wall of China is a 2,400-km wall that stretches along the southern side of China's Mongolian plain. It was built in the 3rd century by the Ch'in Emperor, and it was appended by successive dynasties.

The Taj Mahal is a mausoleum made of white marble, and it is situated on the banks of river Yamuna in Agra. The mausoleum is the epitome of Indian Islamic architecture, and it was built by the Mughal emperor Shah Jahan in honor of his wife, Mumtaz Mahal. The Taj Mahal was completed in 1643, and it remains one of the most impressive buildings ever created by Man.

Peru's Machu Picchu is the ancient Inca site excavated by US explorer Hiram Bingham in 1911. The site is located in an elevated area, with the Urubamba River flowing below. The Machu Picchu was a pre-Columbian city, and even after hundreds of years, the site remains intact. The city served as a mountain retreat for Pachacuti Yupanqui, the ruler of the Incas, during the 15th century. The ruins feature some spectacular architectural designs, such as terracing systems and religious monuments.

The Chichen Itza is an ancient city that was established during the time of the Mayan civilization. It is located in the northern part of the Yucatan Peninsula, and it was once a major Mayan city. The structures in Chichen Itza feature a mix of architectural styles, which include Mexican and Puuc designs.

- 3. **Footnote 3**

10. **Page Number**

1. **Introduction**

This document describes the system architecture and components.

2. **System Architecture**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

3. **System Components**

- 1. **System Overview**
The system is designed to provide a comprehensive overview of the system architecture and components.
- 2. **System Components**
The system consists of several key components, including the user interface, the data layer, and the business logic layer.
- 3. **System Flow**
The system flow describes the sequence of operations and data flow within the system.

4. **System Flow**

- 1. **System Overview**
The system flow describes the sequence of operations and data flow within the system.

5. **Conclusion**

This document provides a detailed overview of the system architecture and components.

The system is designed to provide a comprehensive overview of the system architecture and components.

6. **Appendix**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

7. **References**
