

## Advanced 1- Conversation about the importance of collaborative learning

**Class Objective:** I will be able to understand and speak on this particular topic

### Concept A: Vocabulary:

Recuperate: Recover
Marie has still not recuperated from her illness in full measure; she is still on medicines and needs a crutch to help her walk.
Redundant: Exceeding what is natural or necessary, superfluous
With the introduction of extensive computerization in the bank, many clerks wondered if they would be rendered redundant because computers could do their job more effectively and efficiently.
Speculate: To ponder
Nobody will come to know of the election result before it is officially declared; whatever anybody says about the result is nothing but a matter of speculation.
Spineless: Lacking courage
You cannot expect such a spineless person to fight for the country at the Indo-Pak border.

Chagrin: Disappointment
She again emerged as the topper, despite all efforts by her rivals, much to their chagrin and her delight.
Disparage: Belittle
Calling this swank five-star hotel a dhaba is nothing but a vicious attempt to disparage its status as a prominent eating joint.
Domicile: Home
Which state are you domiciled in, Punjab, Haryana or Himachal?
Foible: Weakness
All humans have some foibles, which ought to be overlooked in the interest of mutual social relationships; it is only the bigger mistakes which should command our attention.
Galore: In abundance
With problems galore and few solutions in sight, it is indeed a tough situation for Rinu.
Geniality: Warmth and kindness of disposition
He is appreciated for his geniality towards others.

1. **Introduction**

2. **Background**

3. **Method**

1. **Study Design**
2. **Participants**
3. **Intervention**

4. **Results**

1. **Primary Outcome**
2. **Secondary Outcome**
3. **Subgroup Analysis**

5. **Conclusion**

1. **Summary**

6. **References**

7. **Appendix**

8. **Supplementary Materials**

9. **Notes**

1. **Author Contributions**
2. **Conflicts of Interest**
3. **Disclaimer**

10. **References**

1. **Introduction**

This document describes the system architecture and the components of the system.

2. **System Architecture**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

3. **System Components**

- 1. **System Overview**  
The system is designed to provide a secure and reliable environment for the user. It consists of several components that work together to ensure the system's functionality and security.
- 2. **System Components**  
The system is composed of several key components, including the user interface, the data storage, and the processing unit. Each component plays a critical role in the overall system performance.
- 3. **System Flow**  
The system flow is designed to be efficient and easy to use. It follows a clear and logical path from the user's input to the final output, ensuring that the user's needs are met.

4. **System Flow**

- 1. **System Overview**  
The system flow is designed to be efficient and easy to use. It follows a clear and logical path from the user's input to the final output, ensuring that the user's needs are met.

5. **System Flow**

This document describes the system architecture and the components of the system.

This document describes the system architecture and the components of the system.

6. **System Flow**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

7. **System Flow**

1. **Introduction**

2. **Background**

3. **Method**
