# Pronominal adverb (Da+Wo Komposita)

# Class Objective

I will be able to learn Pronominal  
Adverbs in German..

## Concept A - Pronominal / Pronoun Adverbs:

- Pronoun adverbs are the combination of a preposition and a pronoun. They are used only to refer to things (not for living things).

- Beispiel : daran, darauf, hieraus, hierauf, woraus, wovon, usw.

- The adverbs wo and da coupled with prepositions become helpful tools in day-to-day German conversation. By themselves, wo means "where" and da means "there", but by adding prepositions, it changes their whole meaning.

## Concept B - Adverbs "da-" + preposition:

- When objects following prepositions refer to inanimate objects or things,
- and we want to say 'with it', 'for it', 'to it', etc., we cannot simply replace the
- full noun with a pronoun. Instead, German replaces the noun with da-, which
- it attaches to the front of the preposition.

- The adverbs "da-" + preposition are used very often and their translation
- depends on the context.

## Concept B - Adverbs "da-" + preposition:

ADVERB	MEANING
dar <b>an</b>	at it
dar <b>auf</b>	On it
dar <b>aus</b>	From it
da <b>bei</b>	In the process , at the same time
da <b>gegen</b>	Against it

## Concept B - Adverbs "da-" + preposition:

dar <b>in</b>	In it
da <b>mit</b>	With it
dar <b>über</b>	About it
da <b>zu</b>	additionally
da <b>für</b>	For it
dadurch	Thereby, in doing so
