

Advanced - Story 17

Class Objective: I will be able to read the story, learn new vocabulary and grammar rules.

Concept A: Story:

The Story of The Prodigal Son

There was a very rich person. He had two sons. The first son was hardworking. He always obeyed his father. He was a very good and nice person. But the second son was totally different from the first son. He was lazy. He did not work in his father's field. He was disobedient to his father. He wanted to lead a gay and free life.

One day, the younger son said to his father. "Father, give me my share of property." The father felt very sad. He divided the property. The second son took his share of property. He left home with his share. He went to a distant land. There he made a lot of friends. He spent his property lavishly on his friends, food and drinks. He had many bad habits too. He wasted all the money. Soon he was left with no money. His friends saw this. They all deserted him one by one.

At that time, there was a famine in that land. He could not get any job. None of his friends gave him food or money. He was forced to take up a very mean job. His job was to feed the pigs. Very often he ate the food kept for the pigs. He was very sad about his present conditions. He soon began to think of his father and his brother.

He said to himself, "In my father's house, even the servants have enough food. They get good shelter too. But here, I am struggling for food and shelter. I will go back to my father. I will beg him to take me as his servant."

So decided, the prodigal son set out for his father's house. In the meantime, his father was always thinking of his second son. He would sit near the windows. He would look out at the road, expecting his son to return home.

1. **Introduction**

This document describes the system architecture and the components of the system.

2. **System Architecture**

- 1. **System Overview**
- 2. **System Components**
- 3. **System Flow**

3. **System Flow**

- 1. **System Flow Diagram**
- 2. **System Flow Description**
- 3. **System Flow Details**

4. **System Details**

- 1. **System Details Description**

5. **Conclusion**

This document describes the system architecture and the components of the system.

This document describes the system architecture and the components of the system.
