# Adverbs क्रियाविशेषण अव्यय

# **Class Objective:**

I am able to understand and answer all questions related to adverbs in Marathi.

# **Concept A: Definition**

ज्याप्रमाणे विशेषण हे नामाबद्दलची विशेष माहिती देते, त्याचप्रमाणे क्रियाविशेषण हे क्रियापदाबददल विशेष माहिती देते.

(Jya pramane visheshan he namabaddal vishesh mahiti dete, tyach pramane kriya visheshan he kriyapada baddal vishesh mahiti dete.)

An adjective is used to describe a noun. Similarly, an adverb is used to describe a verb.

क्रियाविशेषण हे क्रिया केव्हा, कुठे, किती वेळा घडली याची माहिती देते. (Kriya visheshan he kriya kevha, kuthe, kiti vela ghadli yachi mahiti dete.) The adverb provides information about when, where, how many times the action took place.
