Concept B- Urdu Pronouns

There are various types of pronouns, each with its significance in the Urdu language. Relative pronouns, possessive pronouns, intensive, interrogative, demonstrative, indefinite pronouns, and personal pronouns are some of the Urdu pronouns.

Personal Pronouns

Pronouns primarily linked with one of three grammatical persons, first, second, or third Person, are called personal pronouns. Number, grammatical or natural gender form all influence the appearance of personal pronouns. Conjugated verbs following the pronouns are used according to the situation and mood.
