

World in future, new lifestyle, new inventions.

Class Objective: I will be able to describe the topic -World in future, new lifestyle, new inventions.

Concept A: Lifestyles and Inventions That Will Power The Future And Change Our Tomorrow For The Best

Expressions

- I think plastic water bottles may soon become a thing of the past if they are replaced by edible water blobs called the Ooho!. Actually ,water bubbles come encased in an edible membrane made of a natural seaweed extract that decomposes if not consumed in 4 to 6 weeks. Isn't it Wow!
- I like the idea of Helium balloons that travel to space. I think we should forget space capsules, don't you think it would be more thrilling to just hop on a giant-ass balloon that takes you to space? Well, not actual space but even touching the periphery would do the job, won't it?I think it would.
