Playing System – Teams Events

STAGE 2 explained

For A Finals and B Finals - The principle one game (set) = one point applies.

1. First five matches must be played

The match is over if one team leads with one of the following results:

15:0, 15:1, 15:2, 15:3, 15:4, 15:5, 15:6, 15:7

If none of the above results occur, the next two matches must be played.

2. After seven matches:

If one team leads by 7 or more points, the match is over and that team is declared the winner

If not, the remaining two matches must be played

3. After all nine matches:

The team with more winning games (sets) is declared the winner

**In case of a tie, the winner is determined by the total number of points won
(e.g., a set score of 11:9 counts as 11 points vs 9 points)**
