

Cost & Deals (CD) is an H-E-B Supplier IDM enabled application used by Direct Store Delivery (DSD) and Warehouse suppliers that helps support supplier item cost updates and deal submissions for approved items set up with H-E-B. The application allows for flat deal submissions and supports the ability to download a complete list of supplier items.

Applicable items must be set up by a supplier and approved by an H-E-B Buyer in the Product Attribute Management (PAM) application prior to associated cost updates or deals being submitted in CD.

Navigating to the Supplier IDM Quick Set Up Guide

Using a Google Chrome browser: Navigate to the H-E-B Supplier Site (<https://supplier.heb.com/home>)

Select "Systems" > Select "Supplier IDM" > Select "How to Register?" > Follow "Supplier IDM - Quick Set-Up Guide" steps

Featured Applications

H-E-B Supplier Connect

H-E-B Supplier Connect helps suppliers through the onboarding process and enables maintenance activities throughout the supplier lifecycle.

Supplier IDM

Supplier IDM allows access to all enabled SSO applications including Product Attribute Management, Cost and Deals, Coupon Management System, Event Order Management, and Own Brand Product System.

Marketplace

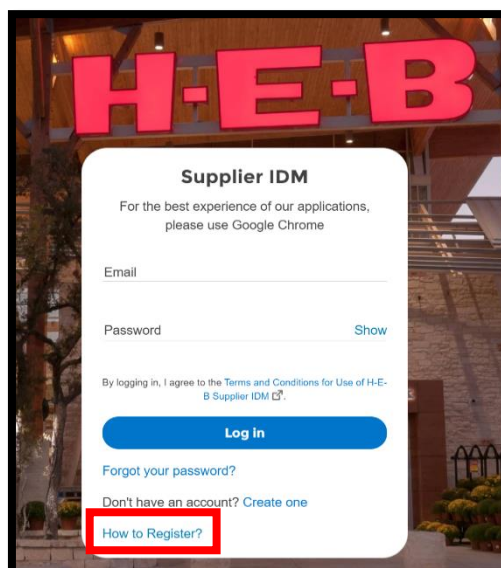

Easily create, approve, receive, track, and pay for orders associated with non-resale items.

AP-AR Portal

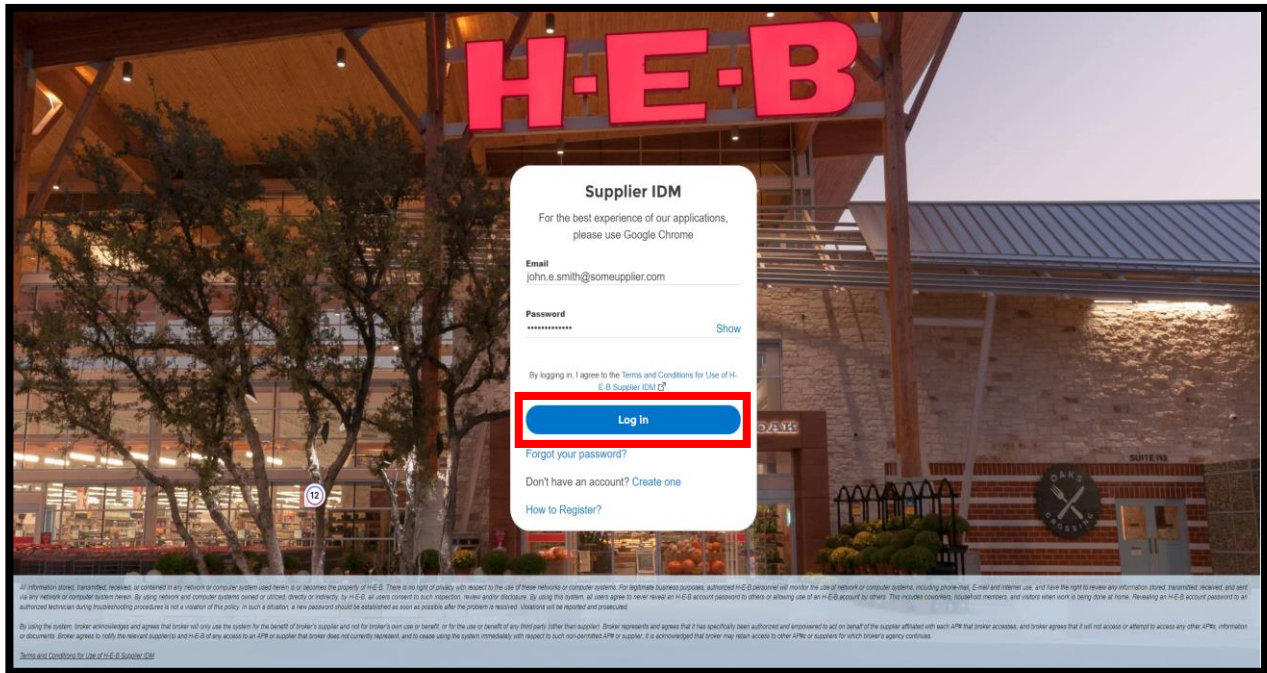

Retrieve information related to invoices, payments, adjustments, and bills from H-E-B.

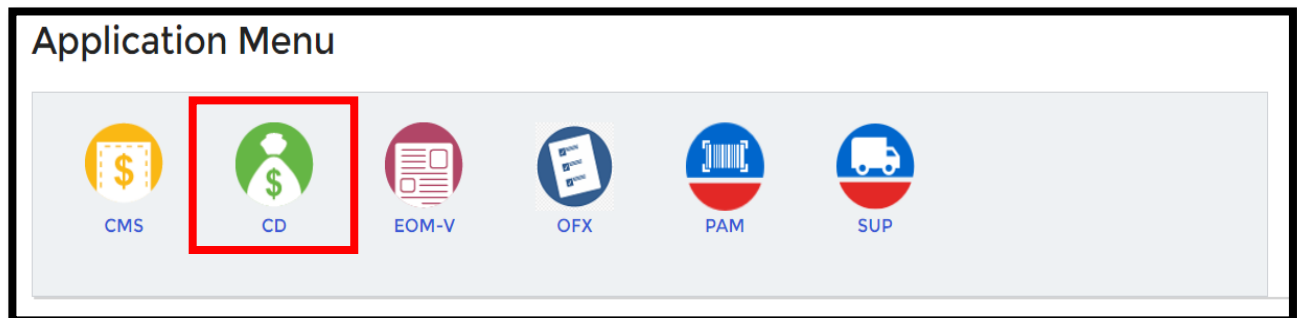

How to Access CD

Enter the registered email address and password into the respective fields.

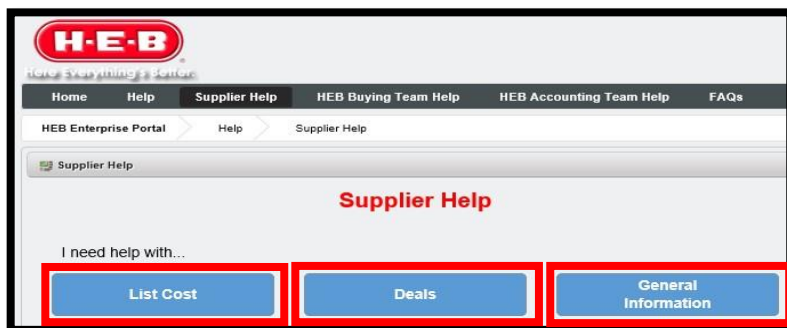

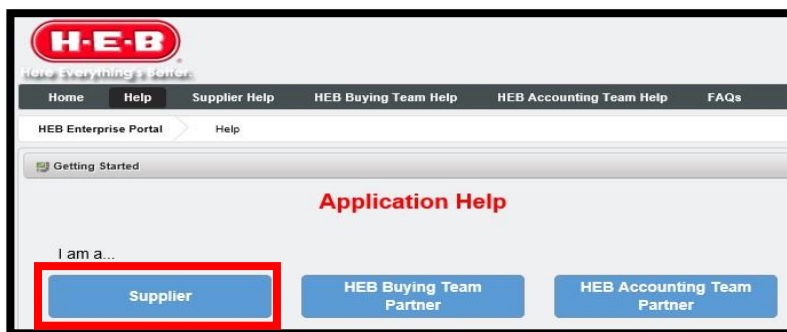

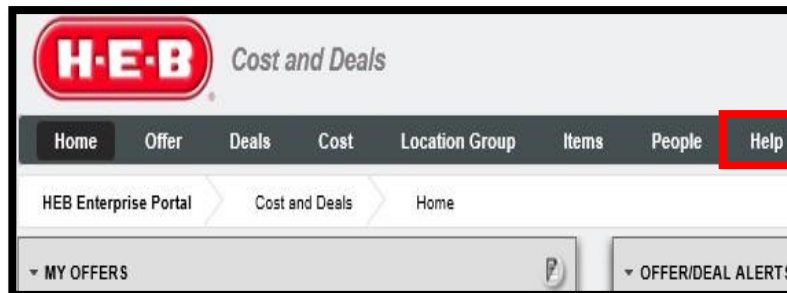

Click the icon of the desired application in the Application Menu to be directed to that application.

Leveraging the Cost and Deals Help Tab

Navigate to CD from Supplier IDM > Select “Help” > Select “Supplier” > Select one of the following Help Guide tabs
