

Get started with Google Meet

Use Meet to keep in touch with your co-workers, and people in other organizations. Meet conversations are synced automatically across devices, so you can start a video call on your computer, and continue the conversation on your mobile phone. Access Meet and join a meeting from any device, by going to <https://meet.google.com>.

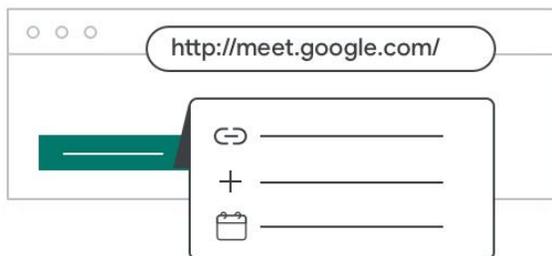

Start and Join a Meet video call

Schedule a video meeting from Calendar.

Start a video meeting.

Start a video meeting from Chrome browser.

Start a video meeting from your mobile device.

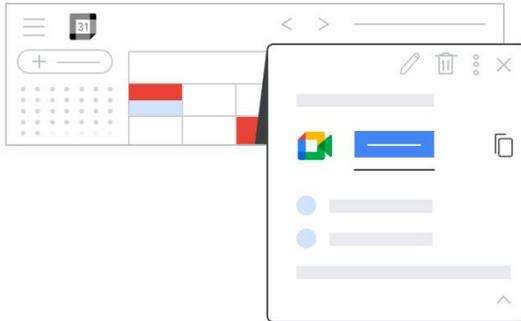

Join a video meeting.
