

SWT SoftPack

SwT SoftPack is based on a recycled board in the middle and the outer plies are non woven. The board can be tailor made with desired thickness on both baseboard and non woven. Our non woven board is perfect when you have a need for a protection that doesn't scratch the surface of the product. Below are properties of our standard quality, but it can be adapted to your needs.

Property	Tolerance	Standard	
Grammage g/m ²	±6%	ISO 536	645
Thickness mm	±7%	ISO 534	0,85
Bending stiffness MD	-20%	ISO 2493	-
Bending stiffness CD	-20%	ISO 2493	-
MDxCD	-20%	ISO 2493	-
