QUATREX™ 182 SURFACTANT	Oilfield Exploration and Drilling

Quaternary Ammonium Compound

Application

QUATREX™ 182 SURFACTANT is a concentrated, water/brine soluble corrosion inhibitor for use in a wide range of oilfield applications including: drilling fluids, cementing slurries, completions and corrosion control.

Chemical Characteristics

	Minimum % Weight	Typical	Maximum % Weight
AMINE, FREE			4.0
AMINE, FREE, INITIAL			6.3
QUATERNARY	50.0		55.0
SOLIDS	57.0		60.0

Benefits

QUATREX™ 182 SURFACTANT Is an effective corrosion inhibitor base and wetting agent in water injection systems. This product works best where CO₂ and H₂S are present.

Special Handling

Store in closed containers above 45°F (7°) and below 120°F (49°C).

Comments

Recommened treat rate is 10-50 ppm.
