

MENTAL HEALTH AWARENESS MONTH DRIVE THRU

Celebrate May Mental Health Month and help demonstrate what SLO County is capable of when we break down stigma, build wellness, and strengthen our community. Now more than ever it's important to make mental health a priority!

Community members are encouraged to drive by one of the county's three locations to receive a sweet treat and a mental health care package. Drive by to learn about all the ways you can receive virtual mental health supports during the COVID-19 pandemic. We are all in this together!
