

Meningococcal Vaccination for Grade 5 Students

Circular No: HB/AC/26-27/41

Dated: 03/06/2026

Dear Parents,
Greetings!

This is to inform you that the school, in accordance with the instructions of the Ministry of Health and Prevention (MOHAP), will be providing the **Meningococcal Vaccination for Grade 5 students from 8th June 2026** onwards. The vaccination will be provided only to students whose parents have submitted the duly signed consent form.

Kindly note the following important points regarding the vaccination programme:

- Students who are suffering from any illness or health condition on the day of vaccination should not receive the vaccine. Please inform the class teacher and the school clinic if your child has any health concerns.
- Students who are currently taking medications, especially antibiotics, should postpone vaccination. An alternative vaccination date will be arranged if required.
- Children who have received any other vaccine should wait at least 28 days before receiving the Meningococcal vaccine. Please inform the class teacher if your child has recently received any vaccination.
- If your child has a history of severe allergic reactions to vaccines or any vaccine components, kindly inform the school clinic before the vaccination date.

We appreciate your cooperation in ensuring the health and well-being of our students.

A handwritten signature in green ink, appearing to be "Suresh Sukumar", with a stylized flourish at the end.

Suresh Sukumar
Principal In-Charge
