„For me, a career means being able to look at the big picture."

Daniel, one of us since 2012.

With its business applications, 1&1 IONOS is one of the leading hosting an cloud applications providers in Europe. With our state-of-the-art technologies, we convince more than 8 million customers in many different countries every day.

JAVA DEVELOPER (F/M/D) MIDDLEWARE

in Karlsruhe

Your tasks:

We drive the customer experience with the middleware platform that we build and develop for IONOS self-service applications. We provide the interface to the customer and handle every system they need for working with their IONOS account. Login, authentication, authorization and OAuth are just part of what we do. You can be a part of this exciting, agile field, where we value new ideas, initiative and collaboration. What you will be doing:

- Developing REST based services with Java 13, Spring and RESTEasy.
- Integrating different backend systems and databases.
- Being part of an interdisciplinary team using agile methods to independently drive the customer experience for one of our product segments.
- Maintaining, creating concepts for and implementing our applications.
- Supporting and collaborating the team, designing the middleware landscape architecture.

Your Profile:

What you bring to the team:

- Practical experience in development of middleware/ backend services with Java. Our technology stack consists of Java, RESTEasy, Spring, Redis, PostgreSQL, OAuth 2, Tomcat, Maven, git. The more familiar you are with these technologies, the easier it will be for you to join us.
- Basic knowledge in working with Linux as a development and server environment and in handling the console.
- Pragmatism and focus on making practical solutions for the customer while still keeping the larger goal in sight.
- Willingness to learn new topics and technologies and enjoy communicating and working in a team.
- Good written and spoken English skills round off your profile.

We are looking forward to your application with reference code: KA-CaHe-1912071 to jobs@ionos.com.
