**WHY
BIG STICK®**

By placing a large charred stick in a bottle, you achieve a uniquely smooth taste. It smoothes out the bite of a traditional spirit. The harsh bite is gone, but the flavor is not. The size of the stick really does matter!

The engineering design is such that it allows for a balance of a large surface area and volume of wood to come into contact with the spirits while still allowing for a legal fill sized bottle. We blend our spirits and designed our lines to be of the highest quality.

Go big or go home. Timid is not a word used to describe us. Following that theme, what better name to call it than BIG STICK®.
